

Hot Chocolate Marshmallow Snowman

You will need:

- Marshmallows
- Pretzel sticks
- Candy corn
- Mini Chocolate Chips
- Extra long toothpicks (4 inches)

Instructions:

1. You may need to cut your pretzel sticks as they could be too long; 3/4 as long as what they were to begin with should be just right.
2. Slide three marshmallows on the toothpick to create a snowman, then use scissors to cut off the pointy end of the toothpick.
3. Use the toothpick to poke holes for the arms, legs, and nose, and then push the pretzel sticks and a candy corn in the snowman. Then poke small holes for the buttons and push mini chocolate chips into the holes.
4. Place some mini chocolate chips in a sandwich bag and melt in your microwave (30 seconds at a time until melted). Cut off a tiny corner of the bag and 'pipe' the chocolate out to draw eyes and a mouth on the snowman.
5. Make sure to let small children know there is a toothpick inside the snowman before they start eating it.
6. That's it! Have fun making marshmallow snowmen for your hot chocolate!
